

STORAGE, WAREHOUSE, AND SUPPLY CHAIN OPERATIONS

SERVICES

Health, safety, and environment (HSE) processes play a critical role in the storage, warehouse, and supply chain industry. With safety as our priority 24/7, APTIM is your expert partner in managing HSE to ensure compliance with legal requirements and, more importantly, protect the wellbeing of your team. Our team of environmental and sustainability experts offer the following solutions:

- ▶ Audit, labeling, and segregation of hazmat
- ▶ Data processing, analysis, and refinement
- ▶ DOT compliance expertise
- ▶ Equipment recommendations
- ▶ Hazmat reverse logistics compliance
- ▶ Operations management
- ▶ Process optimization and implementation
- ▶ Safety planning, training, and certifications
- ▶ Site design and layout
- ▶ Site management
- ▶ Sustainability

CONTACT

Avoid injuries, violations, shutdowns, and reputation damage by partnering with APTIM. Our HSE team will help you achieve operational excellence; mitigate environmental concerns; and create a premier safety environment for your team, clients, and stakeholders.

TRAINING

APTIM's in-house Department of Transportation compliance manager, an occupational health and safety specialist, will ensure your fleet is in-line with federal and state regulations and that your team is knowledgeable on potential risks and how to avoid them. APTIM provides on-site and virtual certification, as well as the creation, review, and updating of online training modules, for the below HSE courses:

- ▶ Basic Safety Training (4 hours)
- ▶ Emergency Response Awareness (4 hours)
- ▶ Emergency Response Operations (8 hours)
- ▶ Emergency Response Refresher (8 hours)
- ▶ Emergency Response Technician (24 hours)
- ▶ General Hazard Awareness (4 hours)
- ▶ Hazardous Waste Refresher (8 hours)
- ▶ Hazardous Waste Supervisor (8 hours)
- ▶ Hazardous Waste Worker (4 hours)
- ▶ On-scene Incident Commander (8 hours)
